Description

This 2011 Chrysler Grand Voyager CRD Touring offers a practical solution for those needing a spacious and well-equipped family vehicle. Powered by a 2.8 litre diesel engine, this model is designed to accommodate seven passengers comfortably while providing a range of convenient features. Drivers benefit from keyless entry with an immobiliser for added security, alongside automatic headlights that adjust to changing conditions. Inside, the cabin maintains a comfortable environment thanks to automatic climate control with three zone temperature settings, ensuring all passengers can manage their own comfort levels. Parking this large vehicle is made straightforward by the inclusion of both the Parksense rear park assist system and the Parkview rear back-up camera, which provide clear guidance when reversing. Beyond its technological aids, the vehicle is defined by its generous interior layout, which includes a large boot space that remains highly functional even when all seven seats are in use. This combination of advanced parking assistance and significant storage capacity makes the Grand Voyager a capable choice for families who require extra room without compromising on ease of use.
