Description

This 2024 electric Nissan Townstar presents an exceptional ownership proposition, having been driven only 13,665 miles by its single owner. The Acenta Auto L1 6dr derivative boasts a 45 kWh battery, offering a maximum range of 178 miles when new. Charging is convenient, with a full charge at home using a 7kW charger taking approximately 6 hours and 18 minutes, while rapid public charging can replenish the battery from empty to 80% in just 39 minutes. Inside, you'll find an 8in colour touchscreen infotainment system complete with Apple CarPlay and Android Auto, rear parking sensors for easier manoeuvring, automatic climate control for consistent comfort, and bright LED headlights with daytime running lights. The Townstar is powered by an efficient electric motor delivering 120 bhp, providing a responsive driving experience. These features collectively indicate a superior offering compared to other vehicles in its class. The combination of its low mileage, single owner history, and comprehensive list of modern features makes this Nissan Townstar a compelling choice for those seeking a practical and well equipped electric vehicle.
