Description

1955 Land Rover Series I 86" - Authentically Preserved & Ready to Enjoy Signature Classics is proud to offer this wonderfully genuine 1955 Land Rover Series I 86" — a charming, highly original example that perfectly captures the spirit of early British motoring. Honest, usable, and full of character, it's the kind of vehicle enthusiasts spend years searching for. Presented in its original body panels with an older repaint, this Series I wears a beautifully aged patina that simply can't be replicated. The period look is completed by a reproofed canvas hood, correct shovel-back seats, and original Lucas glass lighting, subtly complemented by discreet period-style indicators. Structurally, it's especially desirable, retaining both its original chassis and bulkhead — something rarely seen on a 70-year-old example. Mechanically, it has benefitted from extensive recent work, ensuring it drives exactly as a well-sorted Series I should: 2.0L petrol slant-bore engine - recently serviced Fully operational heater Freewheeling front hubs Cylinder head and valves skimmed with NOS copper gasket fitted New core plugs and coolant flush Brand-new clutch New exhaust system Rebuilt original brake master cylinder New hydraulic hoses throughout Four new brake slave cylinders Eight new brake shoes Four new shock absorbers Five new 6.00x16 tyres and tubes Electrically, it features a new wiring loom and has been converted to reliable 12-volt negative earth with a recent battery installed. Maintained to MOT standard and supplied with a fresh test, it's ready for immediate enjoyment. This is a beautifully honest, mechanically refreshed and structurally original Series I — a genuine early Land Rover that feels as authentic to drive as it looks. Opportunities to acquire such an untouched and characterful 86" are becoming increasingly scarce — especially examples this well preserved. Every vehicle purchased through us comes with: ✓ 12
